The Montessori Elementary Program is designed to follow the next plane of development espoused by Maria Montessori. The emphasis is on cultural curriculum; zoology, botany, history and geography. The program also emphasizes what current brain research and social intelligence tells us about how people succeed in later life such as the ability to self initiate, to work cooperatively, to communicate effectively, to develop critical thinking and problem solving skills, and the ability to locate resources. The Elementary Program is about making your child a “great” adult; awakening the man or woman inside “the child”.
